HEALTHY TIFFIN CHART

Dear Parents / Guardians,

As per the guidelines of the CISCE (Council for the Indian School Certificate Examination), we hereby request all the parents to follow the Healthy tiffin chart given below. The aim is to help students understand the importance of healthy eating, the risks of junk food, sugary snacks and cold drinks, and the need for balanced diets. This initiative is part of a nationwide campaign to safeguard children's health and reduce risks of lifestyle-related diseases. We look forward to your support in encouraging healthy habits at home as well.

Please pack light, simple, and wholesome tiffins with grains, veggies, proteins, and fruits – nurturing healthy bodies and sharp minds.

Here's a suggestion for the Monthly Healthy Tiffin Chart that can be followed by all the students. It's balanced with variety, easy to prepare and child-friendly while keeping nutrition in mind. Please seek your doctor's / nutritionist's advice and do the needful.

GENERAL TIPS FOR PARENTS :

1. Avoid chips, colas, sodas, frooti, a combination of noodles with white bread, too much fried food and consumption of excessive sugar.
2. Include at least 1 seasonal fruit daily – can be cut & hygienically packed separately.
3. Hydration – send a water bottle; in summer, lemon water/coconut water/electrolytes can be added.
4. Small portions – better to pack just enough so food doesn't get wasted.
5. Variety – rotate between grains (rice, wheat, ragi, suji, oats) for balanced nutrition.
